GURNEY-GROWN NURSERY STOCK

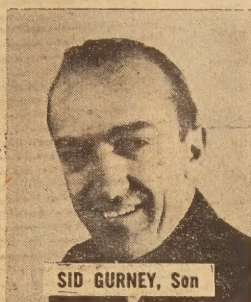

Gurney's Extra Hardy Stock Backed
By 87 Years of Nursery Experience

Our Nursery stock is grown right here at Yank-
ton and our nurserymen have had a lifetime of
experience. This is a combination that is hard
to beat. Our growing conditions, with extreme
cold winters and hot, dry summers, is the only
true test of hardiness. If our stock doesn't have
the vim and vigor to withstand our climate, we
don't have it to ship. This extra hardiness,
extra ability to "take it" is of benefit to you no
matter where you live. It's the kind of stock
that can take it and start off with a "bang" even
if your soil and conditions aren't quite right.
Gurney's northern-grown nursery stock cost you
no more. Why take chances?

GURNEY Nursery Stock Guarantee

We guarantee our nursery stock to be state inspected,
free from disease, true to name, and first class in every
way. Examine the nursery stock carefully when you
receive it. If you are not pleased with it, return it
promptly at our expense and we will replace or refund
in full, as you prefer. After you have planted it, if it
fails to grow owing to weather conditions or other
factors over which we have no control, we will replace
following season at half price if you notify us before
August 1, 1953.

CHINESE ELMS

For Shade...For Hedging...For Windbreak

These are not the little "darning
needle" seedlings generally offered
but husky, well rooted 3 ft. trees
priced to sell. The extra hardy
Siberian Type are growing and
thriving from Mexico way up into
Canada. Thrive on poor soil too.
Lots of growth quick in the wind-

Special Offering of HEDGING

Use Hedges for Beauty, Protection, Privacy, Lot Dividers

CARAGANA is the drouth lover. One of the hardiest of all hedges. Pea-green color, locust-like leaves. Gives tight hedge. Can be trimmed any height from 1 to 10 feet.

GREEN BARBERRY is a fine, medium-height, extremely hardy hedge that grows about 3 feet high untrimmed. Has shiny red berries in winter. Good stopper of unwanted traffic.

COTONEASTER makes beautiful, dense hedge. May be kept to 18" by trimming; grow to 4 feet un-

trimmed. Dark, glossy leaves in early spring turn red and yellow in fall. White flowers followed by black fruit. Thrives in almost any soil.

CHINESE ELM is the low-cost, quick grower. Can be trimmed any height from 1 to 10 feet. Very hardy. In leaf early and late.

HONEYSUCKLE is ideal for the tall, screening hedge because it grows tall, has beautiful foliage and in spring has beautiful flowers followed by shiny red berries.

This is the tall, stately tree used so much for avenue or background planting, as a tall screen, to mark a lot line, as sentinels by the yard entrance, to line a driveway. They form tall, stately columns of dark, shiny-green leaves. Succeed on soil too poor for other trees, and grow rapidly. One reason they are so good for a screen or windbreak is that their foliage grows close to the ground.

3 to 4 Foot Size

No. A2024XS

If you want an apple orchard at very little cost, and at the same time want good varieties that will give you apples over the entire fruiting season and way into the winter, this collection is for you.

1 WEALTHY. The good keeper. Has yellow background and covering of red. White flesh, very juicy. Very good for pies. Very hardy. Leading commercial and home-orchard apple for north. Keeps well.

FREE GIFT: 1 Seckel Pear. This is the "Sugar Pear" because of its delicious, sweet flavor. Excellent fresh from the tree and fine for desserts. A small pear that is "tops" in quality.

1 HARALSON. Described in collection at the right.

1 YELLOW TRANSPARENT. See description in collection at right.

1 PRAIRIE SPY. The best flavored keeper. Attractive red color, very high quality, productive, and hangs on tree well. Because such a good keeper and so much better quality than Winesap and others on the market after Christmas, it is widely planted for home and market.

1 DARK "All-Red" DUCHESS. The best summer cooking apple. Ripens juicy red fruit in August. Delicious in apple pies and for sauce. First degree of hardiness. If you like the old Duchess of Oldenburg, you'll like this new Duchess.

ALL FOR ONLY \$4.59

EXPRESS NOT PREPAID

No. A2025XS

1 HARALSON. Hardest of all winter apples. A big, red, juicy apple that keeps until summer. Bears heavily and annually on a sturdy, strong-branched tree. Bears fruit in three years.

1 FIRESIDE. The new Super Delicious. An apple of Delicious quality yet hardy enough to grow and fruit in the far north. Trees large, vigorous, well-branched. Fruit beautifully striped. Flesh crisp, firm, juicy. Developed at University of Minnesota State Fruit Breeding Farm.

1 WHITNEY CRAB APPLE. A deliciously flavored early. Good eaten fresh, and best for pickling. Fruit is large for a crab apple; sweet and juicy. Color is yellow with lively red stripes. Hardy, vigorous, and heavy bearer.

1 YELLOW TRANSPARENT. The clear yellow summer apple for tasty pies and sauce.

1 PRAIRIE SPY. Described in collection at the left.

FREE GIFT: 1 Early-Bearing Anoka Apple. Small two year trees in the nursery row often bear several large, delicious apples.

Here's Why GURNEY APPLE TREES Are Better

Most apple trees are grafted on common apple seedlings. But we bud (not graft) our apple trees on iron-hardy Baccata root stock. Baccata is an extra hardy Siberian crab apple with heavy, strong roots. Thus Gurney's

apple trees are hardy as far north into Canada as apples can be grown, where ordinary apple trees would not live, and at the same time they are extra hardy for southern planters. And they bear 2 to 4 years sooner.

LATHAM does well anywhere. Fruit is large, many a full inch long. Bears enormous crops. This is Minnesota's great market berry.

INDIAN SUMMER gives you 2 big crops a year! High quality, early, hardy, more disease resistant. This is the finest new everbearer.

FREE GIFT: 2 Gurney's Famous Purple Gem, the hardest of all Raspberries.

YOU'LL LIKE GROWING RASPBERRIES

because they take so little room (plant them along fence or border, if you wish), take little care, and produce big crops of delicious fruit. And if you are looking for

a market crop, something that will bring you in extra cash, they rate right: with strawberries as one of the best and surest money makers.

CUMBERLAND produces enormous crops of large, firm berries of the finest flavor. The berries are juicy, not seedy. Fine for shipping, market or home use. The most popular Black Raspberry grown.

MORRISON. This is a new, improved black with larger fruit, improved

quality, larger yields. We believe this new improved berry will take the place of the common black raspberry in a few years.

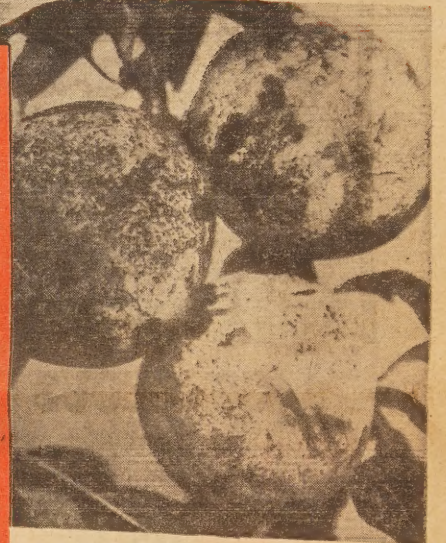

FREE GIFT: 2 drouth-resistant, early, red raspberry "Chief"—enough to give you a start in this good variety.

3 Hansen Hybrid PLUM TREES

ALL 3 for only \$4.39

POSTPAID TO YOUR DOOR

No. A2187XS 4 to 6 ft. Size

We believe these 3 plums are absolutely the finest of all the hardy Hybrids developed by the late Dr. N. E. Hansen. They all produce heavy crops of fine quality fruit for eating fresh or canning. Bear early too.

1 KAGA. The "Apricot Flavored Plums". Delicious, delightful and fragrant. Fine as a pollinizer too.

1 SAPA. The rich, black, sweet plum with red flesh.

1 TECUMSEH. Often considered the finest of the large hybrids. Easy to grow and delicious quality. Flesh yellow with bright red skin. Very early.

FREE GIFT: 1 New South Dakota Plum. Dr. Hansen's latest and probably one of his best.

PLUMS are our SPECIALTY

For over 70 years we have made a specialty of plums because they bear a sure, heavy crop of delicious fruit almost anywhere. And they are particularly adapted to

the Northwest, where so many of our customers live. All Gurney plum trees are budded on hardy native plum seedlings—not on peach, as is a common practice.

Loads of Delicious Fruit

FREE GIFT: One Korean Bush Cherry—a beautiful shrub with fine, sweet cherries.

These Hybrid Bush Cherries not only bear delicious fruit but they make beautiful ornamental shrubs or screens. They have pretty foliage all summer and are covered with white blooms in the spring. The fruit of these is much larger and tastier than the old Hansen bush cherries and better growers. You folks who are out of the regular cherry country can grow these new hybrids and enjoy the fruit just as much as you would regular cherries. Have no equal where they want both fruit and beauty.

1 Gurney's Giant Red-Fleshed Cherry. Plum-sized fruit of dark purplish-red skin and flesh. Grows 4 to 6 feet tall. Bears very heavily. Actually more like a plum.

1 Brooks Hybrid Bush Cherry. Dark red fruit on compact bushes. Bears heavy the second year after planting.

1 Black Beauty Hybrid Bush Cherry. Luscious, glossy black cherries with deep red flesh. Fine for eating fresh, canning and for pies.

1 Nanking Hybrid. Most outstanding new fruit introduced in last 10 years. Fruit about size of Montmorency. Grand to eat from hand. Wonderful for pies, canning, preserves or jelly. Berries a deep red; flesh is firm, tender and sweet. Small pit. A beautiful ornamental shrub or screen. Illustrated at far left.

You will agree that this collection is just right. Plenty of Juneberries for canning and freezing and lots of Everbearers for fresh fruit the entire season. These are all young, heavy-rooted, vigorous plants that are full of vitality. And they are the best strains—which makes them worth more to you.

GEM EVERBEARER. Always has been one of most popular varieties. Fruit is large, rich red and luscious. Produces from June until frost and lots of berries too. Extra large, thrifty plants.

NEW ROBINSON. The finest Junebearer. Lots of large, bright red berries. Delicious for table use and for canning and freezing.

SENATOR DUNLAP. The ever popular, old favorite of the Junebearers. Berries are dark crimson with deep red flesh of fine quality. Grows almost everywhere and hard to beat for canning.

1 Carolina or Norway Poplar. (Cottonless Cottonwood—no seed.)

100 2 to 3-ft. size NORTHERN COTTONWOOD

Northern Cottonwood is the tree that grows big—quick. It is literally the quick saw log—the “fire wood tree”. Also ideal for shelter belt and erosion control planting. And you should have a few around the edges of your fields to give the stock some shade and protection.
